## INSTAL OFFICERS SUNRISE CHAPTER

A very impressive ceremony was held in the Masonic Hall on Wednesday evening, September 25th when the Worthy Grand Matron of Alberta O. E. S. Miss Mamie Gibson of Lethbridge, duly installed the officers of Sunrise Chapter, Irma. Assisting her were Mrs. Maud Cullens of Edmonton, G. C., Mrs. Sutherland of Wainwright, G. A., and Mrs. Wiseman of Wetaskiwin, P.W.M. There was a full attendance of members and also many visitors from Camnagh Chapter, Wainwright and Magdeline Chapter, Manville.

The officers installed were as follows: Mrs. C. Larson, W.M.; Mr. J. Waite, W.P.; Mrs. E. Cole, A.M.; Mrs. G. Tripp, A.P.; Mrs. T. M. Reeds Sec.; Mrs. M. Tripp, Treas.; Mrs. E. Waite, Con.; Mrs. B. Shaw, A. Con.; Mrs. E. Luxton, Chaplin; Mrs. A. Love, Organist; Mrs. S. Schon, Adah; Mrs. J. Lissou, Ruta; Mrs. M. Sanderson, Esther; Mrs. P. Masson, Warden. After the ceremony, a social half hour was spent followed by a delightful banquet. The meeting closed by singing: Auld Lang Syne.

## ROYAL ARCH PURPLE MEET- AT WAINWRIGHT

A contingent from Irma L. O. L. visited Wainwright on Tuesday night to assist in advancing seven Wainwright Brothers to the R. A. degree. Several Orangemen from Gilt Edge and Kibston were also in attendance. The following distinguished visitors were present: Rt. W. Bro. A. E. Williams, Provincial Grand Master; W. W. Bro. Hagerty, Grand Lecturer for British America; Rt. W. Bro. J. Cryer, Provincial Grand Lecturer; W. Bro. T. Smith, County Master and W. W. Clasper, County Secretary. After the degree work was through a good lunch was given and speeches by the distinguished visitors were listened to with much interest. The Irma boys returned home arriving in Irma about 4 a.m.

## J. R. LOVE TO HOLD MEETINGS

J. R. Love, M.L.A. for Wainwright Constituency will hold a series of meetings at the following places: Everybody is requested to attend any of these meetings and hear what he has to say.

Sligo—Tuesday, Oct. 1st at 8 p.m.  
Prospect Valley—Wednesday, Oct. 2nd, at 8 p.m.  
Chauvin—Thursday, Oct. 3rd, at 2 p.m.  
Roras—Thursday, Oct. 3rd, at 8 p.m.  
Edgerton—Friday, Oct. 4th at 2 p.m.  
McCaffery—Friday, Oct. 4th, at 8 p.m.  
Battleview—Saturday, Oct. 5th at 2 p.m.  
Albert—Saturday, Oct. 5th at 8 p.m.

## OIL IN GALAHAD DISTRICT

The Hudson Bay-Marland Oil Company have completed intensive geological surveys along the north bank of the Paint Earth Creek—just west of the Hanna-Viking highway—8 to 12 miles south of Galahad and have announced prospects for oil as being excellent.

Already this company have let the contract for the drilling of several 400-ft formation test holes. The first of these is to be drilled on the P.G. Frey farm, which is located on the highway 8 to 12 miles of Galahad.

Weather prophets are now in the throes of predicting the kind of weather this province will have this winter. One says that the winter is going to set in early this year and last a long time. He may be wrong about the early part, but if it does come early it will last a long, long time. Then again if the winter set in late it presages an early break-up with a cold and dismal spring. If you recall your experiences you will find that this is quite a correct statement. Nevertheless it is safe to say there is going to be some cold weather, long winter or no long winter.

There will be an old time dance at Strawberry lains school Friday night October 4th. Everybody is invited to come.

## CHURCH NOTICES AND ACTIVITIES

**UNITED CHURCH**  
The services next Sunday in the United Church will be as follows: Strawberry Plains at 11 A.M. Alma Mater at 3 P.M. Irma at 8 P.M.  
Topic: "The Third Commandment" or Reverence.

Next Sunday is a Special day in the Sunday school. Rally Day is always observed on the last Sunday in September. In connection with this there will be a special program. We want this to be a very successful Rally and all are cordially invited.

The W. A. are putting on a Whist Drive in the Masonic Hall, Friday, Oct. 4th. Prizes given, lunch served. Admission 50c. Everybody welcome so come and have a good time.

**ANGELICAN CHURCH**  
There will be a Harvest Thanksgiving Service in the Anglican Hall on Sunday, September 29th. Everybody welcome.

The next W. A. Meeting will be at the home of Mrs. W. E. Inklin on Tuesday, October 8th.

The W. A. are holding a Whist Drive in the Masonic Hall on Friday, October 4th. Prizes given, lunch served. Admission 50c. Everybody come and have a good time.

## APPOINTED MATRON & DIETETIAN SCHOOL OF AGRICULTURE VERMILION, ALBERTA

Miss Marion E. Storey of the Soldiers Settlement Board, with headquarters at Regina, Sask., has just arrived at Vermilion where she has accepted the position as Matron and Dietitian of the School of Agriculture.

Miss Storey was formerly connected with the Provincial Schools of Agriculture, and since has had a wide experience in Western Canada, that will especially fit her for the work. She is a graduate in Household Science, and has just completed a post-graduate course of Institutional Training.

## KINSELLA

Mrs. J. Scott left Monday evening to spend the week in Edmonton with her daughter Mrs. Jack Elliott. The E. C. D. of Edmonton installed a Frigidaire in the Hotel here last week.

Mr. and Mrs. Percy Jones and daughter visited Mr. and Mrs. R. Eston Monday afternoon.

Miss Isabel Stronach who is teaching near Minburn spent the week end at her home here.

Mrs. Hawkesworth and son Claude of Vermilion spent a few days with the former's daughter Mrs. Jack Neale last week.

The threshing is just about finished around here.

Messrs. Holmes and Alcroft who have been in Saskatchewan for the past two weeks threshing returned home on Saturday. They reported the weather not very good for threshing as there has been so much rain.

Miss K. Perrie who is teaching near Loughheed spent the week end at her home here.

Mr. V. Justik is having his house wired for the electric lights.

Now is the time of the year to advertise for those stray horses and cattle. A small ad in this paper will help you.

## NEWS ITEMS FROM KINSELLA

Miss Mabel Follow, teacher at the Lake Vernon school, is having her tonsils removed at the Viking hospital this week. Her sister Hazel is teaching in her absence.

The government highway leading to Loughheed from Kinsella was completed this week as far south as the Lake Vernon coulee.

The government highway leading to the railway crossing west of town has been graded all the way into town and shows real improvement. Considerable work is also being done on Second Avenue west.

Mr. Markell shipped two carloads of cattle from Kinsella this week. Threshing in all parts of the district is now practically completed.

We have been favored with splendid threshing weather and the grain is grading high. The yield is small.

Indications point to sufficient feed for stock for the coming winter.

The following are recent purchasers of Maytag Aluminum power washers.

Mr. and Mrs. B. A. Clelland of Irma; Mr. and Mrs. A. Overby, Jarow; Mr. and Mrs. O. Overby, Kinsella.

A couple of car accidents happened on the main highway west of town last week. A party motoring from Ontario driving a large sedan turned over. After being put on its wheels again the car proceeded under its own power. No one was seriously injured.

The other car turning over was driven by Mr. Wm. McKie of Kinsella. Mr. McKie was coming from Viking and on turning the Thompson corner he was approached by an unknown driver, whom we presume, owing to the sharp turn was holding to the centre of the road, and to save himself from a collision Mr. McKie drove too close to the ditch and upset. Mr. McKie was alone in the car and luckily was not seriously hurt. His new Chevrolet Sedan was damaged some, especially the fenders which were badly bent.

## A SCOURGE

Eastern Ontario is fighting that scourge of youth, Acute Polymyositis (Infantile Paralysis) and both Ottawa and Toronto have had a large number of cases, the majority of the patients being children. Quite a few deaths have occurred. This is the season for Infantile Paralysis. There have been quite a few cases in Alberta within the last month. Now that the children have returned to school, there is daily contact, especially in this so-called country schools, where during vacation period children are usually widely separated.

If a child exhibits signs of sickness, i.e. fever, running nose, loss of appetite, irritability when touched, he should be isolated for twenty-four hours. In that time whatever disease is incubating will develop. On no account should other children be allowed in contact. The symptoms may develop nothing worse than a bad cold, or it may be measles or scarlet fever, or again it might be Infantile Paralysis. If at the end of twenty-four hours, the child is still sick, a doctor is indicated. Where the whole future of the child is concerned, it is criminal to run the smallest risk.

Pamphlets on Infantile Paralysis may be had free, from The Canadian Red Cross Society, 407 Civic Block, Edmonton.

## I WISH I HAD KNOWN ABOUT THAT

It's not an uncommon occurrence to hear this remark when one friend in conversation with another mentions some notable value secured in shopping at the local stores.

Such opportunities make strong appeal to a sense of thrift and economy.

The more closely the local merchants keep in touch with the wishes of the buying public the more certain you are of shopping to best advantage in quality, selection and money's worth.

Read the advertisements in this paper.

The W. A. are putting on a Whist Drive in the Masonic Hall, Friday, October 4th. Everybody come and have a good time.

## The Wastebasket

Jay: I think the driver in that car ahead must be a school teacher I had when I was in school.  
Jay: What makes you think that?  
Jay: Well, she was just as stubborn about letting me pass.

## Pop Was Wrong

Son: Pop, I got into trouble at school today an' it's your fault.  
Pop: How's that son?  
Son: Remember I asked you how much \$1,000,000 was?  
Pop: Yes, I remember.  
Son: Well, "a helluva lot" isn't the right answer.

## Scotch Story No. 7836

The usual morning collection was taken in Church one morning, and the minister noticed a lot of dollar bills in the plate and two pennies. "Ah," said he facetiously, "I see there is a Scotchman present."

Whereupon an old Scot arose from the back of the Church and said "Yes, sir, there are two of us."

## Good Bait

"Why are you putting 'personal' on that letter to Mr. Durand?"  
"I want his wife to open it."

## A SURPRISE

An old farmer made a trip to the city and decided to startle the wife by appearing in brand new raiment.

To save wear on the new suit he placed it in the back of the wagon. A few miles from home he took off his old clothes and tossed them off a bridge into the river.

He was surprised to see that the new clothes had dropped out of the wagon.

"Giddap, Maude," yelled the man, pulling down his shirt tail as he realized his plight. "We'll surprise her anyhow!"

## CANADIAN NATIONALITY

ADMITTED BY OTTAWA

There is a Canadian nationality but no Canadian race and any government form filled with nationality as "Canadian" is accepted, it was learned today at the Dominion Bureau of Statistics.

Complaint was made in Toronto, of a father who had three times wrote down his child as Canadian and the form was returned, Ottawa being blamed.

It is pointed out here that the vital statistics forms are made to the provincial authorities and not to Ottawa. If the form was returned because the new baby was termed Canadian it must have been returned by the provincial authorities.

The Bureau of Statistics accepts "nationally Canadian" but also seeks racial origin, which has nothing to do with nationality.

## NEW CHEVROLET MODELS

Two new Chevrolet models have just been announced by the Chevrolet Motor Company of Canada. Their introduction has come at a time when Chevrolet is enjoying sales far ahead of those ever recorded by a manufacturer of six-cylinder cars; for figures just issued reveal that more than a million Chevrolets have been produced so far this year.

The Chevrolet's two new models are the sport coupe and the Imperial Sedan. The former is a smart four-passenger car, complete in every detail, and yet moderately priced. The top and rear quarters of this model are solid, a roomy folding seat in the rear deck accommodates two passengers, and the rear window may be lowered to make driving more enjoyable for the whole party. The Fisher body is streamlined and finished in new Duco colors.

The Imperial sedan is also built with solid top and rear quarters. Landau irons, plated with Sparkling chromium, give a touch of distinction to the car. A long, sweeping hood, bullet-type headlamps, chromium-plated radiator and one piece full crown fenders, as found on all Chevrolet models, add further to the appearance. The Fisher body has smart concave front pillars with rakishly moulded visor. The standard colors are black with moulding in sargaw, green and striping in tusk ivory.

In these as in other Chevrolet models, is found the 46 hp. six-cylinder Chevrolet motor, with its fuel pump, air cleaner, improved combustion chamber and other features.

## APPLICATION FOR LEASE OF ROAD ALLOWANCE OR SURVEYED HIGHWAY

Notice is hereby given that G. W. Mitchell of Irma has made application to the Minister of Public Works, Edmonton, for a lease of the following road allowance or surveyed highway, viz: Between Sections 11 and 12-45-9 With at point of division. Any protest against the granting of the above mentioned lease must be forwarded to the Minister of Public Works, Edmonton, within thirty days from the date of this notice.  
Dated at Irma, Sept. 10th, 1929.  
G. W. Mitchell, Applicant.

## NOTICE OF SALE OF IMPOUNDED ANIMALS

To Whom it May Concern:  
NOTICE is hereby given that by virtue of power granted under Section 44 of The Domestic Animals Act (Municipalities) and of By-Law No. 423 of the Municipality of Battle River, dated September 9th, 1929; One Bay Mare about 1000 lbs. age about 8 or 9 years, white star in forehead, hind legs white just above fetlocks. Wire cut on left foreleg, also cut on right shoulder, both old scars. Branded A on left hip. ## The Progress of Little Things

In these modern days when it is “the thing” to boast about the bigness of this and that, and when countries and cities lay claim to the possession of the biggest of something or other, we are apt to forget how many of these “big” things were brought about, and to lose sight of the essential fact that anything “big” is in reality only a collection or combination of many very small things.

Nowadays not so much stress is laid upon old sayings of a couple of generations ago, such, for example, as “Mighty oaks from little acorns grow” nor do we stop to contemplate that this globe on which we live is after all made up of “little drops of water, little grains of sand.”

It would be better for everyone of us if we gave greater heed and attached their real importance to the little things of everyday life. The wealth of the multimillionaire is, after all, only an unusually large accumulation of pennies, and some of the very rich men of the world laid the foundation of their wealth by careful saving of their pennies. The hundred of millions of bushels of Marquis wheat harvested in Canada every year is the result of one little kernel developed by Dr. Saunders.

The investment of a very few dollars by the parents of a baby at the time of its birth, if left to accumulate at compound interest throughout the years of its minority, would mean a very substantial sum of money upon which to commence a career in the world by the time the child became of age.

These thoughts come to us when reading a recent article about Trinity Church, in New York City. This church, which stands at the head of Wall Street, the centre of New York's financial district, began its career 233 years ago on a precarious income derived from the fishmen and dead whales cast up by the sea along the shore where one of the world's largest cities now stands. Today Trinity Church Corporation is one of the largest holders of real estate in that city, owning \$15,000,000 of revenue producing real estate, bringing into the church coffers almost \$1,500,000 a year. Nor do these large figures include the value of the property upon which Trinity Church itself stands, the equivalent of about two square blocks in the heart of the financial district, and conservatively valued at about \$15,000,000.

The tremendous wealth of Trinity, we read in the Wall Street Journal, would appear fantastic to the organizers of this church in 1696, when King William III. made the original grant of land to the parish, supplemented nine years later by a further grant from Queen Anne. In those days the land was of no particular value, Wall Street was non-existent, and Fifth Avenue not even a foot path. But Manhattan Island was destined for great wealth, and the worthless property of a little over 200 years ago is worth many millions today.

Historical records contain efforts to obtain funds to start the church, which appear incredible when contrasted with present day values. One aid to the building of the original church in 1696 was a patent issued by the Governor of New York. It permitted vestrymen to seize all drift whales, or anything else driven by the sea onto land, and for which there was no owner. It further directed that the whales be towed ashore, fried, and proceeds used for a building fund.

The lesson of this interesting bit of history is this: Today there are thousands of young people just starting out in life. They have little or nothing. With them it is indeed a day of small things, and as they look around them and see so many huge undertakings, great enterprises, and the speed of the modern world, they are inclined to be discouraged, and become obsessed with the false idea that there is no opportunity for them.

But opportunities exist today as never before. There are a thousand today where there was but one two hundred years ago. The beginning must be small now, as it was then, but the opportunity is there just the same, while the possibilities and probabilities of growth are many times more rapid now.

Tackle the small thing at once; save the small things; the pennies; watch for and embrace your opportunities; conserve those things which come to you. The bigger things, and the rewards of work and of service to your fellowmen will follow in due course.

## Supreme in Circus World

John Ringling Purchases Five Of His Foremost Competitors

John Ringling, who started as a singing clown, rules as supreme ring master of the circus world today.

By purchase of five of his foremost competitors, involving several million dollars, the last of the Ringling Brothers has acquired control of the largest group of tent shows in the world, including their talent, menageries, equipment and winter quarters.

The shows which have been added to the Ringling group are: Sells-Floto, Hagenback Wallace Animal Show, Sparks, John Robinson's and the Al G. Barnes Wild Animal show.

“Excuse me,” said the impatient man at the table to the manager, “but did the waiter who took my order leave any wife or family?”

You seldom find the name of the fellow who thinks he’s “It” in Who’s Who.

## Boils

Dry up boils with Minard's. Its antiseptic qualities kill the poison and draw out inflammation.

W. N. U. 1803

## Alberta Calves For Dakota

Alberta's Flying Rancher Receives Order From North Dakota State University

George Ross, southern Alberta's flying rancher, has received an order from North Dakota state university for 1,000 calves to be distributed by the university to boys' and girls' baby beef clubs throughout the state as part of a movement to encourage more and better livestock production.

The calves will be delivered during October, and after distribution, will be fed up during the winter for spring stock shows in North Dakota.

**It Will Prevent Ulcerated Throat.**—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

## Grafting Progress in Tree Planting

The 1928 reports of inspectors of the tree plantations made on prairie farms with trees furnished by the Forest Service of the Department of the Interior from their nurseries at Indian Head and Sutherland, Saskatchewan, show that 83 per cent. of the plantations inspected were found to be in very good condition, 14 per cent. were fair, and only 3 per cent. were in poor condition.

There are five types of United States currency: silver certificates, gold certificates, federal reserve notes, national bank notes, and U.S. notes.

## Story Of Privation

Tragic Case Of Two Boys' Lost In Woods Of Northern Quebec

How 12-year-old Michael Courtois remained for nearly two months beside the body of his brother, Rene, 19, dead from hunger and privation in the woods, and how the two of them had wandered for miles, famished and helpless, was described at Roberval, Quebec, at the inquest into the death of Rene Courtois, found dead in the woods of northern Quebec, after having been missing since August, 1928.

Fruits, berries and fish bones furnished slender meals of little food for a time, young Michael told the coroner's jury. They were four hundred and fifty miles from Roberval, the nearest outpost of civilization. Having but two matches, they kept a fire burning in a pile for two months. When the search party found them, the fire was still smoldering but Rene Courtois was dead.

Michael, had almost completely lost his reason when rescued, but it is now completely restored, though he is a physical wreck.

The boys were lost when their father left them at his cabin while he undertook a hunting trip. They wandered from the camp.

The coroner's jury returned a verdict, “death by starvation and misery.”

## FEELING WORN OUT

When the Blood Becomes Watery a Breakdown Follows

How many girls and women suffer from headaches, pain in the back of side, poor appetite, nervousness and a constant feeling of weariness and palpitation of the heart at the least exertion. Of course, all these symptoms may not be present in any one case, but any of them show that the blood has become thin and watery, and good health can only be regained by enriching the blood. This should be done without delay. For this purpose nothing else acts so promptly and so surely as Dr. Williams' Pink Pills. Every dose helps to enrich the blood and tone weak nerves and thus brings new health and vitality to the worn and often despondent people. The truth of these statements is proved by the case of Mrs. Howard King, R.R. 5, Truro, N.S., who says: “A couple of years ago I grew so weak I could scarcely walk across a room without help. My blood was thin and I was almost breathless. I had taken Dr. Williams' Pink Pills on a former occasion with good results, and so decided to try them again. By the time I had taken a few boxes I felt much better, but I continued taking the pills for several months, by which time I could walk for miles with little effort. I do all my own housework and care for four children. You will see what Dr. Williams' Pink Pills have done for me.”

You get these pills through any medicine dealer or by mail, post paid, at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Surprised At Development

Lord Queensborough Impressed With Mining Possibilities Here

Completing a tour of Canada, Lord Queensborough, chairman of the London advisory board of Canadian Securities, Limited, stated in Toronto that he was much impressed with the mineral developments going forward in the Dominion. “I had no idea,” he said, “of the immense mineral wealth of Canada until I went through northern Ontario, Manitoba and British Columbia.”

Lord Queensborough declared his report on investment opportunities in the Dominion undoubtedly would be favorable.

**Rub It In For Lame Back.**—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

**Firebrick and Fireclay Products.**—Firebrick and fireclay shapes are produced, both from domestic and imported clays, in Nova Scotia, Quebec, Ontario, Saskatchewan, Alberta, and British Columbia. Refractory silica bricks are also produced in Nova Scotia and Ontario.

## Minard's Liniment—Used for 50 years.

There is a Manchester sexton who believes in accuracy, as witness this entry: “Died, —, male; aged three months; unmarried.” Which leaves no possible room for doubt.

## Relief Of Unemployment

Manitoba To Provide Public Works For The Winter Months

\$725,000 construction program to be carried out in Manitoba during the coming winter was announced by Premier John Bracken, as a means of relieving the unemployment situation. At the same time, action was taken to have the Dominion Government and cities and towns in the province follow a similar course with respect to any undertakings they might have in view.

The work to be done will include construction of a new unit, at the Selkirk Mental Hospital, at a cost of \$225,000; building of the first section of the trans-Canada highway east from Whitecourt towards the Ontario boundary, at a cost of \$200,000; and completion of the new provincial jail near Headingly, at a cost of \$300,000. Appropriations for the works were passed by the legislature at its last session.

## Highway To The North

Stefansson Favors Road From The Pas To Northern Points

Returning from a trip to Churchill, Dr. V. Stefansson, famous explorer, declared he stood ready to give all the aid he could in the attempt to have a highway connecting The Pas and northern points with the roads of the continent.

Enlisting himself as an advocate of a highway to the north, the famous explorer declared that it would be “another step in the opening of the north, a logical advance of civilization into the new northern empire and another blow to the old prejudice that the north is disagreeable and worthless.” He further would “aid ten-fold to Western Canada's attractions as a tourist haven.”

## Minard's Liniment—The King of Pain.

It is usually safe to say that when a child is pale, sickly, feeble and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powder, by destroying the worms, corrects these faults of the digestion and serves to restore the organs to healthy action.

## Commissioner Of Lands

J. W. Martin Is Appointed To Position In Federal Department

J. W. Martin has been appointed commissioner of Dominion Lands, in the Department of the Interior, succeeding the late J. W. Greenway. Mr. Martin has been acting commissioner since Mr. Greenway died about a year ago.

Mr. Martin, who was born in Godrich in 1879, has been in the department many years. He was secretary to the commissioner who negotiated treaty No. 8 with the Indians of the Peace River district. In 1903 he was Dominion lands agent at Lethbridge; in 1907, assistant inspector of Dominion lands at Medicine Hat; in 1910, inspector of land agencies, Calgary; in 1927, acting superintendent at Edmonton. He came to Ottawa as assistant to Mr. Greenway in 1928.

“Wife (to returning husband)—And you dare look me in the face?”

He—“Yes, dear” (hic), you see one gets used to—most (hic) anything.

Halley's comet has a record dating back to 240 B.C., and its visitations spread, alarm and consternation throughout Europe during the Middle Ages.

Japan produces more feature motion pictures than any other country according to the U.S. Department of Commerce.

Mrs. Speaks—And must our country stand by her arms foiled and her hands in her pockets?

Kill that corn with Minard's Liniment.

## Ontario Research Foundation

Saskatoon Professor Will Go To Toronto To Engage In Research Work

Dr. Seymour Hadwen, research professor of animal diseases at the University of Saskatchewan, will leave Saskatoon for Toronto shortly for the Ontario Research Foundation as director of veterinary science.

This foundation is subscribed to jointly by a number of commercial firms in Ontario, and the Ontario Government. The chairman is Sir Joseph Flavelle.

Dr. Hadwen, who has been in charge of the veterinary research at Saskatoon since the laboratory for this purpose was opened, comes from Manchester, England. His research work on the effect of sunlight on white animals and the susceptibility of white cattle to attacks by parasites have attracted attention among scientific men and stock breeders. He has also made interesting discoveries with regard to the cause and method of the change of colour of the fur of wild animals in winter.

## Amputation Association

Annual Convention Attended By 300 Delegates Is Held In Montreal

From all parts of Canada, 300 delegates to the eighth annual convention of the Amputations Association of the Great War, gathered at the Mount Royal Hotel, in Montreal, recently. Sir Arthur Currie received the members individually.

The Dominion officers are: A. E. Lambert, Ont., president; A. Palmer, British Columbia, first vice-president; H. Gendron, Quebec, second vice-president; and A. Sutcliffe, Ont., secretary-treasurer. Executive—W. D. Davies, Alberta; E. A. Baker, Ontario; A. Blain, Saskatchewan; C. J. Brown, Ontario; T. E. Chetive, Manitoba; H. Myers, Ontario.

A. L. Schlesinger, representing the disabled U.S. veterans of the World War, spoke of the common bond of suffering which united disabled men on both sides of the boundary line.

## Prospecting Activity In West

Over 20,000 Mineral Claims Recorded In Manitoba And Northern Saskatchewan

Some idea of the amount of prospecting being done in Manitoba and northern Saskatchewan may be obtained from the number of claims staked and recorded during the past year. In 1928 there were 7,335 mineral claims recorded in the Pas mining district, 1,400 in the Cold Lake district, and 2,118 in the Winnipeg district. There are at present over 20,000 mineral claims recorded in Manitoba and northern Saskatchewan.

## Sunday Work In Russia

Sunday was abolished as a regular day of rest when the Soviet Government recently inaugurated in scores of trades and institutions a new “continuous production week.”

Employees will have their regular hours and rest-day, but work will be carried on continuously by others.

## Your Kids Need Sugar

It supplies body fuel for the energy that keeps them going and growing. No need to stuff or get fat and lazy.

Use WRIGLEY'S for sugar and flavor, and see how ruddily the boys and girls respond.

It's the new science of health-building. Try WRIGLEY'S yourself and stay thin.

3 Handy Packs for 5c

## Population Of Australia

Commonwealth Statisticians Show Increase During The Past Year

The population of Australia at December 31 last, was 6,336,786, an increase during the year of 1928, of 101,932, according to figures compiled by the Commonwealth statisticians. The corresponding estimate for New Zealand was 1,466,832, showing an increase of 16,862.

The state of New South Wales has a population of 2,455,280; Victoria state 1,760,689; Queensland, 916,689; South Australia 579,348; Western Australia, 406,873; Tasmania, 216,563.

The population of the six capital cities of Australia now totals 2,018,248.

**Asthma Is Torture.** No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Thousands do know however, from experience, how immeasurable is the relief provided by that marvellous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

## Hilltop Spent On Hotel Buildings

To provide additional accommodation for visitors to Canada, new hotels just completed, or in course of erection in different cities of Canada represent a total cost of over \$32,000,000.

Blood passes through the heart at a rate of about seven miles an hour.

## Good News

Good results for many a sick, when Mrs. Sylvia Spehr's Tonsilitis is used for Sore Throat, Tonsilitis, Quinsy, Bronchitis, Croup, Croup of Tonsil glands. YOU CAN'T LOSE. Try it. \$1.50 a bottle, post paid. KITCHENER TONSILITIS CO. Agencies Wanted. Kitchener, Ont.

Western Representatives:  
HUNTER-MARTIN & CO., REGINA, SASK.

## Group of Canadian Scientists To Study Resources of Frontier Districts To Aid the Pioneer

Considerable interest has been aroused here of late and throughout the continent of Europe in the settlement of Western Canada, says the *Monetary Times* and continues: Government circulars, railway advertisements, and British newspapers interested in the "New West" devote much space to picturing Canada as a land of opportunity. Wealth is represented as awaiting the daring European emigrant on the very threshold of Canadian soil. He learns that expansive prairies and great tillable plains await his plowshare and will insure him affluence and power. Disillusioned by these circular advertisements the believing immigrant has his hopes smashed by the outlook of frontier life. His new Canadian home is hewed out in an atmosphere that is full of disappointment.

The Canadian Government has brought many new settlers to Canada under the "assisted immigrant" plan. It is hoped that these families will settle on Canadian farms or will courageously endure the hardships of pioneer life. But in any case they are supposed to be agriculturists primarily.

A very distinct contribution toward improving the lot of the pioneer and gaining a more authentic knowledge of the location and resources of our frontier districts is being made by a group of Canadian and American scholars. The National American Research Council and Geographical Society have attempted a very comprehensive program. They hope to make a statistical and historical survey of the fringes of civilization, especially the pioneer belts. The plan is outlined by its farmers as follows: "A pioneer belt is a region of recent, progressive or potential settlement. In this study emphasis will be laid upon agricultural settlement, as well as the preceding forms of exploitation, lumbering and mining. The regions of primary interest are those possessing resources sufficient to support a socially tolerable and economically efficient population. The geographical focus is the temperate zone of either hemisphere and such sub-tropical areas as approach to a temperate zone climate."

The first region to be studied is that of Canada, supposedly because it is the most accessible. The study of this area aims to appraise its natural resources, to study methods of settlement with due regard to avoiding wastage of life and capital, and to trace the successive stages of utilization of natural resources and the resultant effects on economic and social institutions.

This phase of the project has been turned over entirely to an all-Canadian pioneer problems committee of which Dr. W. A. Mackintosh, professor of political and economic science, Queen's University, Kingston, has been named director. Other members will include: Dean W. J. Rutherford, University of Saskatchewan; Professor Chester Martin, Professor D. A. MacGibbon, University of Alberta; Professor D. A. McArthur, Queen's University; Professor C. A. Dawson, McGill University; and Professor R. W. Murchie, Manitoba University.

The research conducted by these experts will fall into four categories. Physical conditions (climate, topography and soil), agricultural economics (farm management and unit settlers' progress, and utilization of land and machinery), history and economics, and social structure.

Their studies will cover the whole pioneer area of Canada, although concentrated on separate regions. The area is conveniently subdivided thus: (1) Quebec clay belt, (2) northern Ontario clay belt, (3) northern Manitoba, (4) southwestern Manitoba and southeastern Saskatchewan, and (5) northeastern Saskatchewan and

northwestern Manitoba, (6) prairie belt (i.e., the dry belt), including irrigated regions, (7) park belt, (8) forest soil area, (9) Peace River country, (10) foothills and ranching country (also, ranching areas in British Columbia and Saskatchewan).

Although it is not intended to seek government aid, the Prime Minister and his Cabinet may be ready to co-operate with handsome grants to cover the more expensive stages of this project. Such disinterested and scientific study of man's relation to his environment and in general and with particular emphasis on the Canadian situation ought to win the enthusiastic approval of all who are interested in the destiny of this great Dominion.

### Fish Meal For Stock Feed

B.C. Product May Be Shipped To Prairie Provinces

As a means of building up the health of Western Canadian cattle, the British Columbia Government is encouraging the use of fish meal as feed. The fish meal is manufactured from pilchards which are caught in millions off the west coast of Vancouver Island.

According to Hon. C. L. Howe, commissioner of fisheries, it has been shown that calves fed on a ration of fish meal had at the end of a year an average height of two and a half inches in excess of the standard; and an average weight of 30 pounds in excess of the standard weight. He added that herds fed on a ration of fish meal are free from goitre and abortion, and that cases of bovine tuberculosis are relatively unknown among cattle so fed.

566

### DRAPED FLARE

A new silhouette for the youthfully smart woman. It shows the raised waistline, a chic detail in all Paris fashions. The circular skirt in diagonal movement is draped at left side which is suggestive of wrapped treatment. Style No. 566 combines printed and plain cotton voile, the popular summer fabric. It comes in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. The deep slender hip-line, makes it suitable for the larger woman, by placing the circular fullness low. Chatterbox green chiffon, tomato red crepe de chine, yellow handkerchief linen, orchid and white printed lawn, purple aster georgette crepe, printed rajah in capucine tones, and sky-blue sheer lace are distinctly smart combinations for this charming afternoon mode. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

### Rats Spreading Westward

Precautionary Measures Are Advised To Check Advance Of Vermin

A matter of fifteen years ago rats had become a major nuisance in the Red River Valley. They seemed to come from the south, and the United States, where the annual damage from rats is estimated at \$200,000,000, got the blame for the invasion. For some mysterious reason the rat menace vanished. There are still rats in the province, but the trouble they cause is relatively slight. Now it is Saskatchewan that is complaining.

The rats are moving westwards across the neighboring province. Four years or so ago rats were only found east of the line through Lampman, Broadview, Springdale and Preceville. At the end of 1928 they had reached Regina, Willowbunch, Lanigan and Watson.

It is the rat that spreads the bubonic plague, and precautionary measures are being advised to check the spread of the vermin. Modern farm buildings on concrete foundations are ratproof, and by means of screening low-lying windows and chutes much can be done to keep them out. It is worth while taking such measures everywhere to prevent them getting a hold.—*Manitoba Free Press.*

### Alberta Crops

Forty Bushels To The Acre Reported In Peace River District

Those who have supposed that there were no good crops of grain in Central Alberta this year, will be interested to learn that a Wetaskiwin farmer, Mr. Gustave Elgert, has been awarded the provincial championship for the finest field of wheat in the province. A day or so ago Premier Brownlee told us that there are crops in the Peace River district which are calculated to yield 40 bushels to the acre. Last week a report from the south stated that in the extreme southwestern corner of the province yields running up to the same figure were expected. The field crops competition in which Mr. Elgert won was open to entries from any part of the province, and entries were actually made in districts all the way from the Athabasca River to the international boundary. To win under these conditions the prize field must have been good, not only by comparison, but by the standards which apply in a normal season.—*Edmonton Bulletin.*

### Experience Was Limited

Man Could Not Give Opinion About Paying Rent

The woman who told the magistrate at Lambeth, England, she had moved 39 times in 35 years lends credibility to a story told by a well-known politician, of a conversation overheard in that same district. A number of men were arguing whether it would prove cheaper to move or pay rent. At last, they appealed to an aged man who had taken no part in the controversy. "Well," said he, after due deliberation, "I ain't exactly in a position to say. You see, mates, I've always moved."

Eternal triangle—love, marriage and divorce.

### C.N.R. OFFICERS PROMOTED

Officers of the freight traffic department of the Canadian National Railways prominently concerned in the recent retirements and promotions are shown above. They are: (1) J. M. Horn, who has been promoted Assistant Freight Traffic Manager, Winnipeg; (2) J. M. Macrae, who has been appointed General Freight Agent, Vancouver; (3) W. Hatley, who becomes General Freight Agent, Winnipeg; (4) A. E. Rosegar, General Freight Agent, Winnipeg, who, on Dec. 15th, retires after 52 years of service; and (5) F. C. Adams, Assistant General Freight Agent, Winnipeg, whose duties are enlarged to give him supervision over rates and divisions.

### Freight Rate Equalization

Petition Being Made For Adjustment Of Rates On Grain And Flour To Pacific Coast

The provinces of British Columbia, Alberta and Saskatchewan have prepared a petition to the Governor-in-Council, appealing from the judgment of the Board of Railway Commissioners, of August 26, 1927.

It will be heard on October 15. Presented by Leon J. Ladner, K.C., for British Columbia, S. E. Woods, K.C., for Alberta, and W. H. McEwen, K.C., for Saskatchewan, the western provinces ask:

"That the mountain differential be entirely removed and that the prairie standard tariff of maximum mileage rates be applied to all territory west of Port Arthur."

"That the rates for the movement of grain and flour from prairie points to British Columbia for domestic consumption be reduced to the rates according to distance as now apply on grain and flour moving from prairie territory through Port William and Prince Albert to points in eastern Canada."

"That the rates for the movement of grain and flour to the Pacific coast ports for export over the lines of the Canadian Pacific Railway be based on actual mileage in accordance with the order of the Board of Railway Commissioners, dated September 2, 1925."

"That the special class lake terminal rates between Port Arthur, Port William, West Port and points in the provinces of Saskatchewan and Alberta be reconstructed so as to remove the present unjustly discriminatory and unduly preferential features thereof."

"That the rates on fruit from the producing areas of British Columbia to points on the prairies be established on an equality with the rates on similar fruits moving similar distances from the producing areas of Ontario to points in the prairie provinces."

### New Type Of Horse In West

Saskatchewan To Evolve Heavy Hunter Saddle Horse

The evolution of a type of horse new to Saskatchewan, the heavy hunter and saddle type, with the ultimate object of providing an interesting and profitable side-line to farming, was launched in the Saskatoon district, when a band of local horsemen and women formed a Saskatchewan Hunter, Saddle and Light Horse Improvement Association, with Col. H. W. Arnold, as president, and M. W. Lawton as secretary. A membership campaign will be conducted. From Clifford Sifton, vice-president of the Dominion Association, the newly-formed organization secured a detailed and instructive account of the work done in Ontario where, in the space of a year 640 horses had been registered for breeding, when only 600 had been expected.

The Great Rift Valley is a gigantic crack in the earth, beginning in Palestine and running down to the south of Lake Nyasa, in East Africa, a distance of about 2,500 miles.

## Promising Future Is Predicted For Port Churchill, Soon To Be Centre of Great Activity

### Pigs and Ribs

It Appears That There Is a Variation In the Number Of Ribs In Different Breeds Of Hogs

"How many ribs has a pig? It may have from 13 to 17 pairs, and occasionally an odd rib, according to Professor A. M. Shaw, head of the Animal Husbandry Department, of the University of Saskatchewan."

"In an article contributed to the September number of 'Scientific Agriculture,' he gives the rib counts from an examination of 3,957 hog carcasses. Apparently the more ribs the better as the market demands a long side of bacon. At competitions the prizes almost invariably go to the hogs with the largest number of ribs. Professor Shaw has found, although the judges may not have actually counted the ribs. Few judges, he points out are aware that variation in number of ribs exists."

The Yorkshire hog has been found to have more ribs than 'grunters' of other breeds. More work will be done at the University of Saskatchewan to find out whether or not additional ribs are of economic importance. The Department of Animal Husbandry will also attempt to develop pure strains with a uniform number of ribs.

Professor Shaw does not hazard any suggestions as to how the variation in number arose. Perhaps in the Garden of Eden the porcine Adam contributed a rib to each of several wives.

In view of all this, there seems no doubt that farmers should raise pigs with more ribs. As Dean Swift might have said: "The man who makes two pork chops grow where only one grew before, will do more for his country than any statesman who ever lived."

### Self Feeders For Hogs

Found To Be Not So Satisfactory For Feeding Bacon Hogs

While self feeders for hogs save much labor they are not entirely satisfactory for the feeding of bacon hogs throughout the entire feeding period. This is particularly so in the case of newly weaned pigs, although a well balanced protein ration supplemented with milk by-products would appear to permit the use of the self feeder for the younger classes of bacon type hogs. In his report for 1928 published by the Department of Agriculture, at Ottawa, the Dominion Animal Husbandman states that some surprisingly good results have been obtained from using the self feeder throughout the entire feeding period. In too many cases, however, it is shown by experience at the Experimental Farms that the use of the self feeder has a tendency to result in a thicker type of hog than is usually produced by careful trough feeding.

### Railway Accidents Reduced

Reduction Of Fifty Per Cent. Is Noted In Past Four Years

In the past four years the railways of Canada and the United States have decreased accidents by 50 per cent., according to figures brought out at the sessions of the American Railway Association safety section, Canadian branch, which have just closed at Montreal. Four years ago, the railways set themselves the goal of cutting accidents 35 per cent. by 1930.

In a year less, they have accomplished 50 per cent. "The railways," a speaker said, "are doing their part. The public is being educated too. There are still too many people who insist on being negligent."

"Unless the public co-operates and learns the rule of 'safety first' we must still have accidents, no matter to what lengths we go to protect."

### Glacier Park, British Columbia

Glacier National Park, British Columbia, derives its name from the magnificent Illecillewaet glacier, which is the chief centre of interest within its boundaries. This glacier falls from the Illecillewaet snowfield which is ten square miles in extent. From the crest of the snowfield to the base of the glacier there is a drop of 3,000 feet.

"Anxious Father (to friend): 'I can't make our Tom out. He's a funny lad. I've taught him all I know and now he knows nothing.'"

She-I wonder why they put corn meal in the dance floor.

He-Oh, that's to make the chickens feel at home.

Colonel Dubuc, chief engineer of the Department of Railways and Canals, and D. W. McLachlan, engineer in charge of the Hudson Bay Terminals, have returned to Ottawa from a tour of inspection of the railway and harbor works at the Bay.

The engineers report excellent progress, although they say the port will not be ready for business for two or three years. Nevertheless Churchill is attracting residents, and already three of Canada's leading banks have established branches there. Furthermore, every time a report goes out of progress on the railway, there is a rush of barbers, bakers and other workers to the new port. There are 2,500 men at work on the railway line and 500 at the harbor, making a community of quite respectable size. The idea of Churchill is a formidable centre for settlement is disappearing. Last winter, work was pursued on the railway, although the thermometer went down to 50 or more below zero at times. The men engaged were hardy pioneers, and on the railway they are building, the workers and small business men of the future town will ride in comfort to the new port.

Cold in winter and extreme heat in summer do not deter settlement in Canada's north; witness the Yukon, far to the northwest of Churchill, where Dawson is a happy community, many of whose dwellers live in flower-covered houses and drive their motor cars over highways that were a quarter of a century ago foot trails to the gold-laden creeks of the Klondike.

Dominion of Canada maps show that gold is located in many sections south of Churchill, and iron and coal and other minerals. Big and small fur-bearing animals abound, the caribou being much in evidence; water powers are awaiting development and there are acres of pulpwood, all marked on the map. Polar bears may swim about among the icebergs right down to where the port works are in progress and whales blow and wallow at the front door, as it were, but there are other more promising signs not far inland. The lakes and rivers of the region teem with fish, and the Indians make a living with the Red Man's minimum of effort. United States and Canadian experts declare that colder weather has been experienced in the centre of Manitoba and as far south as Montana than in Arctic Circle, which is much further north than Churchill.

Reference is made that away up in the Arctic where vast islands and many seas are in evidence, a man may exist comfortably that the Arctic is friendly, in fact. However that may be, it is certain that Churchill is due to become one of Canada's northern communities, and that neither extremes of cold nor heat will keep adventurous spirits from going there in search of a livelihood. Settlement is moving towards the northern boundaries of the provinces whose territories stretch from Quebec to British Columbia.—*Montreal Gazette.*

### May Soon Need Certificate

The time is coming when the motorist who applies to renew his license will have to present a certificate from an approved garage to show that his car has been inspected and found in good shape. Until there is some such safe-guard there will not be a proper assurance that the highways are safe from an unnecessary source of danger.

Dear Old Lady (at village grocer's): "Young man, I should like to try a pound of traffic jam—they've been so much about it in the papers lately."

"So you won first prize in the lottery? How did you come to choose No. 20?"

"I chose the number corresponding to my age."

"I wouldn't try that." "I wouldn't try your case—No. 38 never wins."—*Karikaturen, Oslo.*

## Here and There

352. Canadian Pacific steamer Minnedosa recently brought over to Canada two fine stallions belonging to the Prince of Wales, "Alderman" an Arab, and "Crusader" a Clyde, to go the royal ranch at High River, Alberta. The two horses began their journey at the Toronto Exhibition, and later were carried across the Dominion by Canadian Pacific Express. Special accommodation was provided for them on the Minnedosa.

Rt. Hon. L. C. M. S. Amery, secretary for the Dominions in the Baldwin administration, fulfilled his wish recently when he climbed Mount Amery, 10,340-foot peak in the Rockies, to accomplish which he had travelled some six thousand miles by Canadian Pacific Express of Australia and lines to Lake Louise from Edmonton. He fought his way through blizzards and many other hardships to the top of the peak. He was accompanied by a Swiss guide, Edward Fouz, of Lake Louise.

"Mr. Churchill looked very funny working on one of father's threshing machines," said the Hon. George Rodney, aged ten, who with his younger brother John recently travelled to England to take up schooling. Winston Churchill is a cousin of Lord Rodney who operates a ranch at Fort Saskatchewan, Alberta.

The fourth game refuge has been established in New Brunswick by the provincial government at Beauséjour, consisting of 43 square miles located in Carleton and York counties. This makes a total in all of about 640 square miles of territory set aside in the province as game sanctuaries since 1919.

Hon. J. L. Perron, Quebec minister of agriculture, has announced the loan of two-thirds of the purchase price of pure-bred sheep, without interest charges, to Quebec farmers. He also placed 25,000 pure-bred sheep throughout the province to bring in a yearly revenue of \$250,000.

A yield of 3,599,995 barrels of apples is expected in Canada this year, as compared with 2,253,970 in 1928. Compared with the five-year average of 2,385,210 barrels this is an increase of 20%, making it a bumper crop.

Homestead entries in the four western provinces continue to run well ahead of last year. For the half year they number 7,129 as compared with 5,165 in the same six months period of 1928. Alberta topped the list with 4,062 filings; Saskatchewan followed with 2,281; British Columbia recorded 371 and Manitoba 325.

Sixty-three wells are being drilled in the Turner Valley, 30 miles south-west of Calgary. It is just about to be started and 28 are producing crude naphtha or crude oil—a total of 112 wells. Mr. Winston Churchill, on his recent trip across the Dominion by Canadian Pacific paid a special visit to the Turner Valley accompanied by Mayor Osborne of Calgary.

Selection is announced of John W. Dufosse, Editor of the Winnipeg Free Press, to act as a commissioner on the part of the United States on the International Commission under the Treaty for the Advancement of Peace between the United States and Germany. Mr. Dufosse was selected for this post by the United States Government acting through Hon. William Phillips, United States Minister to Canada. The International Commission now being set up by the United States and Germany is to have five members, of which Mr. Dufosse is the first to be named. All disputes between the United States and Germany, after ordinary diplomatic proceedings have failed, are to be referred to the Commission.

Announcement has been made that Americans and Canadians will join in travelling to the World's Poultry Congress to be held in England in 1930. Delegates will meet at Montreal and will travel via St. Lawrence route overseas. It is expected that nearly 1,000 delegates will make the trip.

Canada's wool crop, like the grain harvest, moves across the country in a great wave, not being a simultaneous operation in all provinces. It begins in the sheltered valleys of British Columbia and moves steadily across the Prairies. The shearing is at its height early in June and is about completed by the end of that month. The crop ranges from 15 to 24 million lbs. yearly and is marketed largely through the Canadian Co-operative Wool Growers.

Canadian Pacific farm sheep swept the board at the Edmonton show recently with three champions including the any age Suffolk ram and ewe. Other winners including nineteen firsts were credited to the Experimental Farm at Strathmore, operated by the Canadian Pacific Railway.

Two employees who have together completed over one hundred years in C. P. R. service were complimented by E. W. Besty, chairman and president of the company, during his recent tour through the Maritime Provinces. They were Charles Henderson, who acted as conductor on the president's special and who started railway work in 1878, and Harry Saunders, engineer of the special, who has been in the company's service for 45 years.

## Here and There

264. Three fish hatcheries will soon be in operation in Alberta, those at Banff and Waterton Lake being supplemented by one at Edmonton. Each can handle 1,600,000 fry a season. These are not necessarily "fried fish."

A twenty dollar gold piece that was insured for a thousand dollars and that sold for twelve hundred was recently shipped by Canadian Pacific Express. The coin was one of seven struck by the government in the Cariboo district at the time of the gold rush, it being thought that a mint could best be operated on the spot. This proved uneconomical, however, and after seven pieces had been issued, the project was abandoned. The coin in question was shipped by the S.S. Montclair to a numismatist in England.

Over 97% of the total investments of the Canadian Pacific Railway and all its varied enterprises are in Canada.

Most fruits, except those indigenous to the tropics, or sub-tropics, are now grown in British Columbia. Apples, apricots, cherries, peaches, plums, prunes, nectarines, figs, loganberries, raspberries, strawberries, grapes, etc. and other hardy fruits and nuts are now grown commercially. Apples have been grown for 17 years, raising in volume of production from 250,000 to 3,000,000 bushels.

With 99 arrivals scheduled at the Port of Montreal and Quebec during the 1929 season, the Canadian Pacific sets up a new record for one line sailing its ships, via the St. Lawrence route. There will be 74 arrivals and departures at Montreal and 25 at Quebec, the season opening with the arrival on April 26th of the Montclair and the Duquesne of York. The latter will be on her maiden voyage of the St. Lawrence. The first arrival at Quebec will be the Empress of Scotland May 4th, after a winter of cruising in the Mediterranean.

One little pig went to market; and low and behold there were eight little pigs when the shipment arrived. It was a sow, and on her route seven little pigs were born. Whether the shipper or the express company should pay the fares of the seven extra and unexpected pigs is a matter that has not been decided yet.

Thirty thousand tons of railway material—trucks and steel framing for box cars—will shortly leave Vancouver for the Orient, en route for the Trans-Siberian Railway. The order for this material was placed thirteen years ago, but delivery was halted with the outbreak of the Russian Revolution, and the equipment left in the Canadian Pacific Railway's yards at Coquitlam until conditions for delivery were more favorable.

Vancouver's growth since its incorporation in 1886 is revealed by the official estimate of the population of the new city by the present commission which places it at 225,295 for the city proper. A reliable but unofficial estimate of the population of Greater Vancouver is 285,000 exclusive of New Westminster. Greater Vancouver includes the City of North Vancouver and the municipalities of Burnaby and West Vancouver. Greater Vancouver and New Westminster have a total population of about 300,000 or about half the population of the entire province.

Each set of equipment of the Trans-Canada Limited and Mountaineer, and there are eighteen of them, is worth upwards of a million dollars. This year, the new rolling stock having added considerably to the value as well as to the attraction of the famous flyer. The C. P. R. Angus Shops at Montreal were busy all winter building special sleeping, dining, and solarium lounge cars for this special de luxe service between Montreal and Vancouver and Chicago and Vancouver.

The Indian of old could wield a wicked tomahawk, but to-day he can handle a mean brassie. The pale-face is threatened on the golf links by Indian golfers, and it is likely that at Banff, Alberta, the redskins will develop even greater prowess. Indian caddies it has been decreed are to be used on the eighteen hole golf course at this famous mountain resort, and the rising generation of Stoney Indian braves are likely to become ardent golf fans.

# Drive It... and let your own experience sell you

NO one who has sat behind the wheel of the New Chevrolet Six could ever be contented with less than the quality... less than the performance that this outstanding SIX provides.

For Chevrolet is the lowest priced six in the world with this remarkable combination of fine car features—

Body by Fisher, with deep, richly-upholstered cushions, Fisher VV Windshield, Terstedt Fittings, fashionable Duo colorings, masterly beautiful design. Six-cylinder valve-in-head engine, of high-compression non-detonating type, with the extra efficiency of "direct firing" and twister pick-up due to automatic accelerating pump.

New design, ball-bearing steering gear, giving marvellous handling ease. Efficient braking system of non-locking four-wheel brakes and independent emergency brakes. Long semi-elliptic, shock-absorber springs, parallel with the frame.

Modern Convenience Features, twin-beam headlights, foot-controlled, high-speed window regulators; indirectly-lighted instrument panel, including electric temperature gauge and theft-proof Electrolock.

And all these, plus the established economy and staunch endurance for which Chevrolet is famous, at the price of a four! Drive it and let your own experience sell you on Chevrolet Six!

## VIKING

His Honor Judge Taylor presided at a sitting of district court here on Tuesday. Two cases were on the docket.

Geo. Therou versus Wm. Barton, both of Jarow. Point involved was payment of a debt. Therou the plaintiff was given judgement with costs. C. G. Purvis, barrister appeared for Therou, and Shortreed of Loughed, for Barton.

Evanchu vs. Stewart. A damage action arising out of a car collision east of town. Judgment given in favor of Evanchu with costs. C. G. Purvis appeared for the plaintiff Evanchu, and Thos. White, of Holden for Mr. Stewart.

The pump-house and windmill on the Julius Saugert farm, three miles south of Bruce, were destroyed by fire last Friday evening about nine o'clock. The backfiring of an engine which was being started to pump some water, we are told, caused the blaze.

For the second time in a few days the lamp post opposite the Alberta lumber yard has suffered by collisions. On Tuesday forenoon a team belonging to John Steip, south of Bruce, ran away from the flour mill up Main street, the wagon coming to a sad ending at the aforementioned lamp post, and the team continuing on its mad run for quite a distance before being brought to a stop. The contents of a cream can were spilled when the rig hit the post.

Sivert and Carl Hafso who are the owners of a Case threshing outfit made quite a record this week. They threshed four jobs in one day, which yielded over 1000 bushels, moved the outfit twenty miles, ate six meals, and wound up with a lunch, all in the course of one day. They have an 18 x 32 Case Tractor, and 28 x 46 separator. There were six teams and two field pitchers. We can deduce from this that they were going some.

Cyril Roach has resigned his position in the Broughton barber shop and returned to his home in Edmonton. While here he was a popular member of the Jolly Sparks orchestra. Mr. McClafferty of the Runyon barber shop is now employed at Broughton's.

Mr. and Mrs. W. McAtthey motored to Edmonton the first of the week together with their son Lane, who is entering university to take up the medical course.

Mrs. Chan Collins was hostess to a number of friends at her home on Second Ave. Tuesday afternoon. She was assisted in serving by Mrs. T. Harrison Metcalf.

Mr. Wesley Bainbridge, who has been in charge of the North Viking Mission for the past two summers held his closing service at Quilns on Sunday morning as a harvest service. The school was beautifully decorated for the occasion. Miss Vera Alexander and Mr. Dwight Draper each rendered solos which were greatly appreciated.

On Friday evening the annual harvest home was held which was well attended and a real success. No small part of this was due to the Viking Church orchestra led by Mr. Basil Hiltiker. Mrs. Waite of Jarow and Miss Marjorie Jones of Rutherglen each gave readings which were heartily enjoyed as were also solos rendered by Mr. Kerns of Kinsella and Mr. Dwight Draper. Mr. J. W. Bainbridge of Viking gave the address of the evening in his usual happy style. At the close of the regular program Mr. Wesley Bainbridge received a very pleasant surprise when Mr. Cooper came forward and on behalf of the Phillips football club read an address and presented Mr. Bainbridge with a purse. The evening closed with a bountiful lunch prepared by the ladies of the district.

Mr. Bainbridge has made many warm friends during his stay as our pastor and we will all follow his course in the future with deep interest and each and all wish him God-speed in his life work.

Word has been received that L. D. Green, a former resident, died at Fayetteville, Arkansas, on September 11 following an operation for appendicitis. Friends here will learn with regret of his untimely death and extend sympathy to the sorrowing relatives.

Everett Ruff, a magician is coming to the Elks Community hall on Wednesday, October 2nd. Mr. Ruff was with the Canadian chautauquas eastern circuit this summer.

Mrs. Chan Collins will be the soloist at the Anglican church services next Sunday forenoon. Mr. Collins will play a violin solo.

Timely warning—Be careful of the gun that isn't loaded.

Question of the hour—Have you got your driver's license, and do you know the number of it?

Born to Mr. and Mrs. O. Fitzmaurice on Wednesday, September 25th, a boy. Mother and son doing nicely.

Cyril Roach and Miss Ann Dorin attended the wedding of the former's sister in Edmonton last Wednesday.

WORLD HAPPENINGS  
BRIEFLY TOLD

Hon. R. B. Bennett, leader of the Conservative opposition at Ottawa, was elected president of the Canadian Bar Association, succeeding the Hon. Wallace Nesbitt, K.C., of Toronto.

According to Assessment Commissioner Farley, the population of Toronto this year showed an increase of 20,742, as compared with 1928. The figures are: 1929, 606,370; 1928, 585,628.

Five thousand tons of anthracite from the Cossack River Don Mining section, the first coal from Soviet Russia to be imported at Halifax, was landed here from the British freighter, "Blairholm," which arrived from Montreal, Russia.

Owing to the recent Canadian order against the importation of Scottish cattle, British United Press understands that the Prince of Wales has been prevented from shipping to his Alberta ranch some recent purchases of pedigree Ayrshire cattle.

Coal, one of the few minerals which new Ontario's wealthy mining fields had long failed to show, has been discovered in vast quantities on the Abitibi River, 90 miles north of Cochrane, Premier Ferguson announced.

Hon. W. L. Mackenzie King, Canadian Prime Minister, is expected to make a tour of the West and British Columbia during October. Hon. Dr. J. H. King informed the committee of the British Columbia Liberal Association at Vancouver.

The government crop report issued by the Dominion Bureau of Statistics estimated the wheat crop for "all Canada" at 257,792,000 bushels. The crop last year was 506,720,000 bushels, which was a record crop for this country. The estimate for the three prairie provinces is 259,474,000 bushels. Last year the prairies produced 514,598,000 bushels.

## Death Dealing Toxin

## Deadly Possibilities Of Use In Warfare Is Explained

The dreadful possibilities of a certain death dealing toxin in war time was mentioned by Professor Leonard Hill, in an address to the Sanitary Inspectors' Association, at Lowestoft, England.

Professor Hill called attention to "a certain bacilli which shall be nameless, but is easily cultivated. If men were as susceptible as guinea pigs are to the toxin produced by this bacillus and there is reason to think they are, it would appear that one gramme, let us say a salt spoonful of the dry toxin would suffice to kill a million persons."

Prof. Hill said that the toxin acted if inhaled or if it touched the eye as a powder. He asked the association members "if men set out to prepare such a toxin and to scatter it by aeroplanes, what would be the use of the panoply of war?"

## Dear Fruit

It is estimated that Eastern Canada's apple crop this year will be about 2,420,000 barrels, compared with 1,750,000 last year. Perhaps this fall it may be possible to buy two apples for five cents in a shop, instead of having to pay five or 10 cents each for them. — Montreal Gazette.

If drivers would only get it into their heads that it is the reckless driver that we want instead of the reckless driver, all would be well on the King's highways.

Radium salt, worth \$300,000, would not fill a teaspoon.

A Severe Attack of  
Dysentery  
Checked by 4 Doses

Mr. I. Burtonwood, 620-22nd St. W., Saskatoon, Sask., writes: "My child, when only seven months old, had a very severe attack of dysentery and after three days' treatment with other things we decided to use On this day his bowels had moved twenty-three times in eleven hours, but four doses checked it."

"A short time ago a neighbor whose baby was troubled, and it too was relieved with in thirty hours."

"We both always keep a bottle of Dr. Fowler's handy at all times. This medicine has been on the market for over 80 years; put up by Dr. T. M. Fowler, Col. Ltd., Toronto, Ont."

W. N. U. 1503

## Infra-Red Rays

## Can Be Used For Penetrating the Deepest Fog

Infra-red rays, the "invisible light" with which the camera peers far into impenetrable fog, now brings to view tiny, living objects that hitherto escaped detection by the microscope. Use of these rays in medical photography was described to the thirteenth International Physiological Congress at Harvard Medical School by Ivan Bertrand and L. Justin-Besancon, of Paris. Infra-red is a longer wave length than red, the most lengthy visible ray. It is an intervening step between light and heat.

The Frenchmen exclude all visible light from the photographic plate which is especially sensitized to the infra-red emanations. They said that because of the extreme length these rays penetrate into and reveal some of the outer portions of living cells. They described photography in a kidney study that revealed organisms "entirely missing in the microscopic examinations by the eye."

## Passing Of A Pioneer

## C. V. Alloway, Of Winnipeg, Dies After Lengthy Illness

Charles Valentine Alloway, pioneer citizen of Winnipeg, who came west with the Wolseley expedition in 1871, to check the Kibi Rebellion outbreaks in Manitoba and remained to become one of the city's best known residents, died recently in Winnipeg following a lengthy illness. Mr. Alloway had travelled extensively through northern sections of the west and at one time was within sixty miles of the Arctic circle. He was one of the earlier visitors to Churchill, Man., and several years ago predicted that the Peace River district, in Alberta, would see heavy fur settlement.

Born in Ireland, Mr. Alloway came to Canada with his parents in infancy. He lived at Hamilton, Ont., from 1855 to 1871.

The most representative health exhibit ever shown in Canada was a recent feature of the Canadian National Exhibition, when the Ontario Government provided space in its excellent show for leading voluntary health societies. Above is shown the Canadian Social Hygiene Council booth designed by Dr. C. P. Fenwick, of Toronto. Other agencies given space by the government were the St. John Ambulance Association, Victorian Order of Nurses, Child Welfare Council and the Red Cross.

## Visit Of Sir John Martin-Harvey

## Again Coming To Canada With Three Well-Known Plays

Who will ever take the place Sir John Martin-Harvey has won for himself in his many visits to Canada? The thought arises from the announcement that on this tour, during which he will be seen at The Grand Theatre, Regina, on November 4, 5 and 6, he will make his farewell appearance as Sidney Carton in "The Only Way." In this role, in this splendid drama, Sir John has built up through many years a reputation that is probably unique in stage history. To the confirmed theatregoer the final speech of this never-dwell character is probably as well known as the soliloquies of Hamlet and all because Sir John brought his great ability to a part that could be less than mediocre in the hands of an actor of ordinary rank and merit. It is truly to be regretted that Sir John has decided to end Sidney Carton for end it is, as there is unlikely to be anyone in this generation who will revive the role to the satisfaction of those who have seen the greatest of Sidney Cartons.

Sir John has made another of his surprising moves in adding for this tour "Rosemary" to his repertoire. This rare piece is a romantic drama of 1887, that makes an appeal to everyone. It is the story of the wholesome love of Sir Jasper Thornyke, 40, for a young girl. It abounds in humor, pathos, and the general beauty associated with the gentle, kindly age it represents. As Sir Jasper, Sir John Martin-Harvey is seen at his best.

For the third play on his list, Sir John has gone to the modern Spanish. The title is "The Lowland Wolf." From the pen of Angel Guimera, the play presents to Sir John a remarkable chance to show talents that have not been altogether displayed on his recent Canadian tours. He takes the part of Manolich, a shepherd of the mountains. The play has been translated into twenty-one languages, and so powerful an appeal has been made by Magelich to the Spanish people, that they have erected a statue to him in Barcelona. In Spain he holds rank with Hamlet. This will be the first time this epochal Spanish play has been seen here, and it should prove one of the most popular in which Sir John has ever appeared. For his present tour he has engaged a splendid company and if it should be a farewell visit it will be one long remembered.

## Forest Fire Fighting Methods

## Specially Designed Apparatus Found To Be Of Great Help

Forest fires in Canada are, to an increasing extent, being fought by specially designed apparatus. Light gasoline fire-pumps have been put into use which will deliver a powerful stream of water through half a mile of hose. Fighting the fires at night is also greatly expedited by the use of lamps similar to those used by miners, which can be attached to the worker's cap and so enable him to keep on working during the hours of darkness, at the very time when his work will have the greatest effect.

Impatient Customer: Well, waiter, I suppose I can sit here until I starve?

Waiter: Sorry, sir. We close at eleven.

There are about 25,000 Mohammedans on the North America continent.

Willenden Magistrate: What is his occupation?

Witness: A married man living apart from his wife.

## REPRESENTATIVE HEALTH EXHIBIT

## Recipes For This Week

## (By Betty Barclay)

## PRUNE JAM

2 cups prunes.  
4 oranges.  
1 cup sugar.  
1 cup water.

Wash prunes and cut pulp from pits. Put pulp through a food chopper. Peel oranges and cut in small pieces. Cut rind of two oranges into small pieces. Mix all together, add sugar and water; cook slowly until thick. Turn into sterilized glasses and when cool cover with paraffin.

## JELLIED CARROTS AND PEAS

1 package lemon flavored gelatin.  
1 cup boiling water.  
1 cup vegetable stock or cold water.  
3 tablespoons vinegar.  
1 teaspoon salt.  
1 teaspoon paprika.  
1 cup cooked carrots, diced.  
1 cup peas.

Dissolve gelatin in boiling water. Add vegetable stock or cold water, vinegar, salt, and paprika. Chill. When slightly thickened, fold in carrots and peas. Turn into molds. Chill until firm. Unmold on crisp lettuce. Garnish with mayonnaise. Serves 8.

## Southern Alberta Irrigation

In southern Alberta there are now ten large irrigation projects in operation comprising an area of slightly more than one million acres susceptible of irrigation from the 5,500 miles of canals and ditches already constructed.

Every two years a whale travels about 25,000 miles, the distance around the world—fish experts say.

Over 100 different languages are spoken in India.

## Want To Go To Churchill

## Government Besieged With Requests From People Who Have Heard

## The Call Of The North

The lure of the north is strong in the hearts of Canadians. Anyone doubting this should see the correspondence pouring in on the Department of Railways and Canals, asking to be allowed to go to Churchill. The flood of requests started when a news item announced that it might be possible trains would be running into that port by the end of the month.

It is rather embarrassing to the department, because at the present the only buildings at Churchill are those to house the men engaged on the dredging and the railway construction. The only food supplies there are those belonging to the government.

Hon. C. A. Dunning, minister of railways, announced that his department was preparing a statement which will be published soon explaining the whole situation there.

## Winter Fair Building

## \$100,000 Winter Fair Building To Be Erected At Saskatoon

Plans for the \$100,000 winter fair building to be erected at the Exhibition grounds at Saskatoon, were approved by the building committee and tenders will be called for immediately. The cost of the structure is being taken care of jointly by the provincial and federal departments of agriculture and the city.

The building, which will compare favorably with any of the kind in the west, will be 200 feet by 180 feet, and the front elevation 42 feet. The sides of the main arena, will seat 4,000 people, and the central portion, which can be pressed into service for conventions, will hold an additional 3,000.

## To Assist Scientific Study

## King Albert To Set Aside Large Tract In Belgian Congo For Preservation Of Wild Life

King Albert, of the Belgians, in the interest of scientific research, has decreed that a large area be set aside in Belgian Congo for the preservation of the fauna and flora of Africa, and for the scientific study of rare species in their natural environment.

Announcement of the establishment of the scientific preserve was made by Prince De Ligne, the Belgian Ambassador at Washington, on receipt of cable dispatches from Brussels.

The sanctuary will be known as the Albert National Park. It is situated in the eastern part of the Belgian Congo, between Lake Kivu and Lake Edward, and comprises approximately 800,000 acres. Administration will be in the hands of a commission on which King Albert has already appointed two scientists, Dr. John D. Merriam, president of the Carnegie Institute, and Dr. Henry Fairfield Osborn, president of the American Museum of Natural History.

A decree by King Albert prohibits under severe penalties the killing, capture, or molestation of any wild animal within the area, including those which are considered dangerous. It is also prohibited to destroy or remove any tree or wild plant or to change in any way the aspect of the landscape. The sanctuary will be protected by Belgian colonial officers and no one will be allowed to enter without a special permit.

"Many rare species of animals, which have almost disappeared from other parts of the world," the announcement said, "are making their last stand in this section of Africa, and it is King Albert's purpose to preserve them so that scientists may come and study them in their natural and primitive surroundings. Scientists recognize that the study of animals in their natural habitat is infinitely more useful than the study of captives or of dead specimens in laboratories."

Several species of cactus were taken from America to the Old World by early European explorers and became established in the Mediterranean region.

Need: "I don't know of a single girl I'd like to marry."

Teddy: "Same here; they're all tied up to some chump."

A salmon has been timed to swim ten yards in a second.

WINDOLITE The Improved  
Glass Substitute

MADE IN ENGLAND

## COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of health and hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the ultra-violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

Price \$1.50 Per Square Yard, L.o.b., Toronto.

## The Most Beautiful BLACK you have ever seen

"THE most beautiful black you've ever seen!" All my friends admire my new black silk! "The coat I thought was hopelessly soiled is now a new beautiful black!" These are typical comments from women who have used these true, jet black dyes.

Diamond Dyes Black never gives cloth a greenish or bronzy look, as so many black dyes do. Like Diamond Dyes Red and all the other Diamond colors, it is easy to use and gives such beautiful results because it is rich in pure anilines. It's the anilines in dyes that give them brilliancy, depth and fastness; make them go on smoothly and evenly, without

streaking or spotting. And Diamond Dyes contain the highest quality anilines that money can buy. The white package of Diamond Dyes is the highest quality dye, prepared for general use. It will dye or fast silk, wool, cotton, linen, rayon, or any mixture of materials. The blue package is a special dye, for silk and wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this! The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

Diamond Dyes contain the highest quality anilines that money can buy. They are the life of that color, the source of their rich colors, brilliancy and permanence.

## The Singing Fool

By HUBERT DAIL  
Copyright, 1935, Warner Bros. Pictures, Inc.

### SYNOPSIS

Al Stone, the singing waiter and song writer at Blackie Joe's New York night club, is discovered by Marcus, the famous Broadway revue producer. Al insists on helping Molly, the ballad singer at Blackie's, because he loves her. Molly marries him, not loving him, and she pulls her up the ladder of fame. Meantime, Grace, the cigarette girl at Blackie's, who loved Al without his knowing it, is left behind. Molly has a baby. After her return to the stage her romantic interest in John Perry, Al's best friend, is revived. Al becomes part owner and master of ceremonies at the fashionable Club Bonito. On the third anniversary of their marriage he ships a jewel case under a napkin on her reserved table. Molly is in her limousine with John Perry on the way to the club. He pleads with her to throw over Al for him and suddenly kisses her.

### CHAPTER XIII

Brimming over with affection, Al greeted Molly as she entered the Bonito Club. Then he turned to Perry and said wholeheartedly: "Avertly good of you, old man, to take care of Molly while I'm working."

Perry had turned away to see if any vestiges of Molly's face powder still remained on his coat. Satisfied that he was safe, he turned his coat, hat and stick over to a check girl and acknowledged Al's thanks with an appearance of shallow cordiality. They passed into the main dining room, Al leading the way. As they moved toward the reserved table, bewildering and contrasting thoughts flickered through Molly's mind. What a strange whirlpool of emotions had sucked her down! She felt the light kissing kiss that Al had given her in greeting still on her lips, but behind it, and much more intense, was the recollection of John Perry's embrace.

Now Molly and John Perry were seated at the table, while Al remained standing, watching his wife with intense curiosity. Why did he do that, she thought. Did he suspect something?

Al was waiting for her to lift her napkin. When she leaned back in her chair and made no move to do it he pantomimed definitely for her to look under the tiny square. Molly raised the napkin, saw the jewel case and card, and gave a cry of delight.

"Oh Al, this is wonderful of you!"

With eyes sparkling she tenderly

lifted from the padded silken interior of the box a magnificent diamond brooch. She drew it close, held it at arm's length, studied it carefully. While Al's face was radiant at her expression of delight. Then she passed it to Perry for inspection.

A moment later she was pinning the expensive brooch to her dress, while Al turned and drew the attention of the crowd toward him.

"Folks," he said, "we have with us tonight none other than Molly Winston, the celebrated stars of the 'Merry-Go-Rounders'."

Then, with a proud gesture, he indicated Molly. Rousing applause was the answer of the crowd—a tribute to the girl's popularity. But Al raised his hand.

"Wait, folks!" he cried. "You ain't heard nothin' yet." He seized Molly's hand and pulled her reluctantly to her feet. While she stood smiling and bowing to the audience he continued:

"And for the benefit of those of you who don't know it already, I want to say that Miss Winston is, in private life, my wife. Tonight we are celebrating the third anniversary of our marriage and—I want you all to congratulate us and be happy with us."

With that, Al suddenly slipped his arms about Molly, drew her close and kissed her. The roar of applause was deafening, twice as loud as Molly received by herself. As she stood, with Al's arm around her waist, bowing again and again, there were insistent cries from the crowd that she give them a song. Molly nodded amiably.

"Will you sing for them, honey?" whispered Al.

"Yes, I don't mind."

Al tucked his arm comfortably under Molly's and led her toward the orchestra platform. The crowd waited silently, giving her every attention. At the table she had left, John Perry sat with his elbow on the table and his chin in his cupped hand, staring after her retreating figure. A vague smile played across his features. When the song was finished and Molly returned, Perry rose and said:

"That was splendid! Molly! I never heard you in better voice. You held them in the hollow of your hand."

"Thank you, John," said Molly quickly, but with pretended indifference. Then she turned to Al: "Can't you sit down and stay with us a while. Must you always be circulating among the customers?"

"I'll be back in a moment," whispered Al. "You know I want to be with you every moment I can. But, after all, I'm master of ceremonies."

Molly shrugged her shoulders as he moved off. She had made her play for him to stay, but she was pleased he had gone off. Now she could talk to John.

"And you say you need him!" came Perry's whispered exclamation across the table.

"What do you mean?"

"Well, you heard the applause you got. You don't need him at all."

"Sh!" Molly drummed on the table-top without further words. The pink, polished nails of her white, beaming fingers went up and down with incredible rapidity. Too many rings on those slim fingers, too many glittering gems to be to the best of taste! How stridently they proclaimed her wealth and success! Molly glanced down at the brooch Al had just given her, as it reposed against the satin bodice of her gown. A few days before she had mentioned casually that she wanted a new brooch. Now—presto!—it was here! But now, a few moments after Al had given it to her, it became just another costly ornament to add to her rich collection; the significance of the gift was lost on her.

A half hour passed, and Al returned to the table. Another half hour, and John Perry rose to go. "Fraid so," John answered. "Now he was the one who thought of caution; he wished she wouldn't show her feelings so plainly before Al."

"Why?" she insisted. "I thought you'd run home with us for a while."

"Well, it's late for one thing. Besides, Molly, this is your anniversary. I know you and Al want some time alone together."

Perry spoke with the utmost gravity, but Molly thought she detected a sardonic gleam in his alert eyes. He was making fun of Al and of her, too! For a moment she hated him for it.

But a moment later, when Perry had gone, she hated Al for creating the situation. Her thoughts, which had been bewildered, turned bitter. Anniversary indeed!

The Rolls-Royce sped rapidly toward home, with Molly keeping silent the whole way. Al, believed she was tired, remained mum, too, out of deference to her mood. When they entered the reception hall of the apartment, Molly, curiously dismissed the maid and Al rushed off to the nursery, to see if Junior was sleeping.

The eyes of the young song-writer lit up with love for his baby son as he tip-toed across the nursery floor and surveyed the child, tucked safely away in bed. What a lovely picture Junior made, his mass of curls framing his delicate young face, his tiny woolly dog nestled beside him on the pillow.

As Molly entered she was struck by the scene. The expression on Al's face told more plainly than words his complete love and utter devotion to Junior. For a moment she remembered her behaviour of the evening and a throb of misgiving shot through her. She was unworthy and she couldn't hide it from herself. Only a great, unselfish love could give Al's face the expression of radiance it held now. She knew she could not achieve such a love, and, suddenly, the realization brought a surge of furious anger within her!

(To Be Continued.)

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

### Migrating Birds

Long Flights By Birds Are Revealed By Leg Banding

Migrating birds have been demonstrated as flight variants by the United States Bureau of Biological Survey, which directs the work of 1400 amateur ornithologists; the latter specialize in leg-banding. While the average feathered traveler maintains approximately uniform speed and range now and then a Lindbergh of the species breaks records. In three months a leg-banded Arctic tern flew from Red Island, Labrador to Natal, South Africa—which, in a straight line, would be 10,000 miles. A robin winged from Crystal Bay, Minn., to Pachuca, Mexico (2,100 miles), in eighteen months.

### Fallacies About the Moon

When Not Visible Kaffirs Say It Has Headache

The Dakota Indians think that the moon at its waning is eaten by mice. The Polynesians believe it is devoured by the spirits of the dead. The Kaffirs say that it wanes when, suffering from a headache, it puts its hand to its forehead and hides the latter from our view. The Eskimos imagine that the moon, harassed by fatigues from a moment to take a rest and food.

### Travelling Libraries

1,250 Travelling Libraries In Circulation at Saskatchewan

Many applications are received by the Saskatchewan Bureau of Publications for travelling libraries, which are supplied to rural districts. The library consists of a stout wooden box about 10 inches deep and two feet square, which holds from 40 to 500 books. When the necessary application form has been filled in and forwarded to the department, usually by some responsible citizen on behalf of a community organization, a library is sent by express charges paid. When all the books have been read by the residents of the district the library is returned. The Government pays the charges one way, and the readers pay the return charges. At the present time there are 62,500 books available and 1,250 travelling libraries are in circulation.

### A WARNING TO MOTHERS

Watch the Health Of Your Little Ones At All Times

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject, but she can do much to lessen the severity of these troubles. The mother should be constantly on her guard to prevent childhood ailments, or if they come on suddenly as they usually do, to have the means at hand to relieve them. Thousands of mothers have found Baby's Own Tablets the ideal remedy for little ones—thousands of mothers always keep the Tablets in the house as a safeguard against the sudden illness of their little ones.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels, sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth easy. The Tablets are absolutely guaranteed free from injurious drugs and may be given to the youngest child with perfect safety. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fortune-Teller: You will suffer poverty until you are thirty-five years old.

"And then?"

"By then you will have got used to it."

Dibbey: "Did your firm fail to pay its debts?"

Biggs: "No; it failed so that it wouldn't have to pay them."

A DOZEN different things may cause a headache, but there's just one thing you need aspirin to get immediate relief. Aspirin is an absolute antidote for such pain. Keep it at the office. Have it ready in the home. These subjects frequently or sudden headaches should carry Aspirin in the handy pocket tin. Until you have used it for headaches, colds, neuralgia, etc., you've no idea how much Aspirin can help. It means quick, complete relief to millions of men and women who use it every year. And it does not depress the heart.

### International Amputation Club

Organization To Unite Under One Banner Proposed In St. Paul

Thousands of Canadian and United States soldiers who lost arms or legs in the battle fields of France, began through representatives at the veterans' of foreign wars annual convention in St. Paul, movements toward formation of an international "Amputation" Club.

Robert Burns, of Winnipeg, who lost his right arm in the world war, and who is the head of a Canadian "amputee" club of more than 1,000 members, declared that such an organization "might prevent the world from forgetting us."

"We want every Canadian, American, English, French and other allied soldier who lost an arm, leg or eye 'over there' to unite under one banner," Burns said, "and join in the fight now, so we won't be forgotten."

### Little Helps For This Week

"In Thy presence is fulness of joy," Psalm xvi. 11.

O Friend of souls! 'Tis well with me whenever Thy love my spirit from sorrow's dungeon forth I free, And hide me in Thy sheltering arms.

The noise of weeping flies away Before the heart-reviving ray Of love that beams from out Thy breast.

Here is my heaven on earth begun: Who were not joyful had he won In Thee: O God! His joy and rest.

—Wolfgang Densler

We can even here be with God, so long as we bear God within us. We should be able to see without address our most holy wishes fade away like sun-flowers, because the sun above us still forever beams, eternally makes new and cares for all. And we must not so much prepare for eternity as plant eternity in our hearts—eternally secure and pure full of depth, full of light and all else.—Jean Paul Richter.

### Anglo-American Comity

Close Co-Operation Of Britain With America Is Desired

The hesitancy of Prime Minister MacDonald to turn too suddenly from a European outlook to one involving the closest co-operation with America is understandable. But his well-known conviction that British foreign policy should be based firmly upon Anglo-American comity promises an ultimate and definite trend in this direction. If the British Empire and the United States are to become the arbiters of world peace, they must put themselves in a position to discuss the basis of that peace.—Philadelphia Ledger.

### Education For Labor

Inauguration Of Workers' Educational Classes Is Advocated In Manitoba

Inauguration of workers' educational classes on lines similar to those which he said were flourishing in Great Britain, Australia, New Zealand and South Africa, was urged by R. J. Hall, of Vancouver, B.C., at a conference with prominent Manitoba educationalists. Labor leaders, and government officials held at Winnipeg. Mr. Hall is a promoter of the scheme in the old country.

Hon. R. A. Hoey, provincial minister of education, thought it possible his government might be interested.

### Proposed Nicaraguan Canal

The fate of the proposed Nicaragua Canal, stretching 183 miles through tropical mountains and forests from the Atlantic to the Pacific ocean, will depend on reports from a battalion of 400 engineers who were recently ordered to duty in the central American jungle to survey the route of the \$1,000,000,000 canal.

Stop Colds with Minard's Liniment.

### Use Of Radium

Complete Potency Of Radium As A Cure For Cancer Not Substantiated

Warnings against undue optimism were sounded at the sixth annual meeting of the British Empire Cancer Campaign, presided over by the Duke of York. Sir Thomas Horder, physician in ordinary to the Prince of Wales, and physician to St. Bartholomew's Hospital, in presenting the annual report, said that the launching of the National Radium Fund might create in the minds of many people an unfounded belief in the complete potency of radium as a cure for cancer. Such a belief might have very unfortunate results for the patient if carried into practice in any case in which the growth was completely removable by operation. If the course of time radium might come to equal or even exceed operative measures in efficiency. At present, however, it was the bounden duty of the doctor, in very many cases, in his patient's interest, to overlook his antipathy to surgical measures. All the same, the number of cases to which radium was applicable and the number in which brilliant results were achieved increased every year. But Sir Thomas added that it was 'open to considerable doubt whether many of the institutions that were advertising for money to purchase radium had upon their staffs men or women qualified to use it. It might even be necessary to employ some of the money collected in providing for such training in the use of a powerful but dangerous remedy.—Toronto Mail and Empire.

### A Mixed Population

Brooklyn, N.Y., with a population of more than 2,300,000 has residents from every country of Europe and South America, as well as from most parts of the other continents.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

There's just three things that I have never seen, an undertaker's funeral, a colored woman driving a car, and a parrot that could really talk.

An essayist has discovered that two can live on three hundred pounds a year; but he omits to say two what.

### Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so run-down and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits."

—Evelyn Bonaparte, 132 Alma Street, Montreal, New Brunswick.

**Lydia E. Pinkham's Vegetable Compound**

# Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times the volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

### Main Street

Miss Eula Morgan is recovering nicely from the St. Vitus dance.

Irma Ladies Aid met at the Manse Thursday afternoon.

Mrs. Maguire left for Winnipeg on Saturday to visit her sister who is very ill.

Mr. Keifer advises us that talking pictures start in Hardisty, Friday and Saturday, September 27th-28th.

Rev. J. R. Geeson visited Holden last Tuesday on Presbytery business in connection with that charge.

Mr. and Mrs. F. W. Watkinson spent a few days in Edmonton last week end.

Mr. and Mrs. J. W. Fenton and Gordon, motored to Edmonton for a few days last week.

Rev. M. L. Wright, of Mountain Park, was in Irma Monday and Tuesday.

Mr. and Mrs. E. W. Carter spent a few days in the City the first of the week.

Mr. and Mrs. Long, of Keota, Iowa, arrived Tuesday to visit with Mrs. Long's sister, Mrs. Roy Shotts.

A Public Meeting will be held in the Orange Lodge room on Monday, September 30th at 8 p.m. Speaker, R. C. Snelgrove, Ex. 28th Batt. C.E.F. Subject: "Canada for Canadians and Canadians for Canada." Admission free. A collection will be taken. Everybody welcome.

Mr. Johann Overbo and Rev. Harry Peters of Hardisty exchanged pulpits on Sunday last. Mr. Overbo will visit with relatives at Kinsella until the end of the month, when he will resume his studies at Alberta University. — Provost News.

Mr. and Mrs. W. J. Angus, of Edmonton, returned Wednesday night after spending a week with Mr. and Mrs. M. T. Knudson.

Mr. and Mrs. Kirkpatrick and family left Wednesday night for Woodstock, Ontario, where they intend making their future home and where Mr. Kirkpatrick has a brother.

Thursday, Mrs. J. A. Bell received a wire advising her that her brother Mr. Bennie Nogleby, had been instantly killed at his home at Mount Vernon, Washington. — Mr. Nogleby, spent two years on Strawberry Plains and is well known in that district.

The weekly newspapermen of the province met for their annual convention in Edmonton last Thursday and Friday. Interspersed with business sessions were informative and inspiring addresses by Premier Brownlee, Dr. W. R. Meikle, president of the University, John M. L. Inre, managing director of the Edmonton Journal, Geo. H. Van Allen, president of the Chamber of Commerce, L. D. Nesbitt, publicity commissioner for the Canadian wheat pool, and others. — B. A. Huckell, of Innisfail, is the new president of the association, H. G. McCrea, of Hanna, is retained as secretary.

### Here and There

(370) Two scholarships at McGill University, Montreal, covering five years' tuition for employees who are minors or minor sons of employees have been awarded by the Canadian Pacific Railway this year, one to C. P. Sturdee, son of E. F. L. Sturdee, assistant general passenger agent and the other to William P. Dunlop, son of John Dunlop of the pension department of the railway at the head office of the company. The scholarships provide for one year's tuition in the faculty of arts followed by four years' tuition in architecture, chemical, civil, mechanical or electrical engineering.

Right Hon. Winston Churchill, Chancellor of the Exchequer in the late Baldwin Government in Great Britain, arrived in Canada recently on the Empress of Australia and made a tour of the country from Montreal to Victoria. He visited Toronto, Hamilton, Niagara Falls, Winnipeg, Regina, Edmonton, Calgary, Banff, Lake Louise, Steamboat, Vancouver and Victoria. He will leave the latter city September 5 arriving at Seattle the same evening. He travelled Canadian Pacific railway and steamships during the whole of his trip.

Purchased for a sum in excess of \$50,000, an oil painting of Lord Peterborough by Sir Anthony Van Dyck, court painter to King Charles I, was carried by the Canadian Pacific Express Company by steamer Montrose to Montreal recently, very special precautions being taken to ensure safe delivery. It was bought by A. J. Nesbitt, prominent business leader of Montreal.

Commercial apple crop in the province of Nova Scotia this year will total about 1,500,000 barrels, about 420,000 less than last year. The Ontario crop is estimated at 770,000 barrels, up 210,000 barrels over 1928. The British Columbia crop is placed at 2,533,100 boxes, about 15 per cent. less than last year. The raspberry crop is reported good all over the Do-
